WORK EXPERIENCE

Infosoft LLC

Colorado Springs, USA(Remote)

Software Developer

Nov 2024 - Current

I design and develop scalable software solutions using languages like Java, Python, and JavaScript, ensuring clean and maintainable code. I integrate automated testing frameworks such as Selenium, JUnit, and Cucumber into the CI/CD pipeline to enable continuous testing and deployment.

My role involves creating and maintaining automated test scripts for functional, regression, and performance testing to guarantee high-quality software releases. Additionally, I collaborate with cross-functional teams align development efforts with business requirements while optimizing application performance for faster and more efficient delivery. Through this blend of development and testing expertise, I contribute to streamlined, reliable software development and deployment processes.

KGK Infotech LLP

Surat, India

Jr. Web Developer

Aug 2024 - Nov 2024

I have hands-on experience working with **NIVID**, where I contributed to their software development. During my time there, I worked extensively with **React Hooks** and **Redux-Saga**, gaining a deep understanding of state management and advanced React concepts.

In addition to my technical skills, I also focused on improving my communication skills while collaborating with team members. I'm passionate about creating efficient, scalable applications and am always eager to learn new technologies to enhance my development abilities.

ZeroneSys LLP

Web Develop – Intern

Nov 2023 - Aug 2024

Developed and maintained web applications using **React.js**, focusing on building reusable components and optimizing performance.

Utilized **React Native** to create cross-platform mobile applications, ensuring a consistent user experience. Implemented backend services and APIs using **Node.js**, facilitating efficient data handling and server-side logic.

Websoul Infotech

Surat, India

Web Developer

April 2022- May 2023

- Utilized **HTML**, **CSS** and **JavaScript** to create and maintain web pages, ensuring a seamless user experience.
- Implemented dynamic web functionality using **PHP** for backend development and **jQuery** for client-side scripting.
- Employed **Bootstrap** to design responsive, mobile-first web application, leveraging its grid system and pre-styled components.

Projects

Luxchono Watch Project:

1. Frontend (React.js):

- 1. User side module
- 2. Admin side module
- User Interface: Developed a responsive and intuitive user interface for a watch application using React.js.
- Admin Interface: Created an intuitive and efficient admin interface for managing watch data and user accounts.
- Component-based Architecture, State Management, Dynamic Rendering, Routing, User Authentication, Api Integration, Form Handling etc.

2. Backend (Node.js):

- API Development: Created RESTful APIs using Node.js and Express.js to handle CRUD operations for the watch application.
- Database Integration: Connected to a database MongoDB for persistent storage of watch data, user information, and admin settings.
- Authentication, Data Validation, Business Logic, File Handling, etc.

SKILLS & TOOLS

Frontend Development Skills: HTML, CSS, JavaScript, jQuery

Frontend Framework: React.js, React Native, Next.js, Remix js

Backend Development Skills: PHP, Java

Backend Framework: Express.js, Node.js

Project Management Tools: Jira

Databases: MongoDB, MySQL, Oracle, PL SQL, RDBMS

EDUCATION

Manipal University Jaipur

Master of Computer Application

Rajasthan, India

Graduation Date: May 2026

Veer Narmad South Gujarat University

Bachelors of Computer Application

Gujarat, India

Graduation Date: May 2024

LANGUAGE SKILLS

English, Hindi, Gujarati
